**Definitions:**

- **Assisting:** Action: Being concerned about, waiting on, or looking after somebody or something.
- **Attend:** Action: Being concerned about, waiting on, or looking after somebody or something.
- **Attention:** Concentration: Purposeful intake and processing of information.
- **Attitude Toward:** Opinion about treatment and health care provider.
- **Attitude Toward Dietary Regime:** Opinion about treatment provided in the home.
- **Attitude Toward Medication Management:** Opinion about medication regime and treatment.
- **Attitude Toward Nutritional Status:** Opinion about health and weight in relation to food intake.
- **Attitude Toward Operation:** Opinion about surgery planned or completed.
- **Attitude Toward Pain:** Opinion about amount and quality of pain.
- **Attitude Toward Pathological Process:** Opinion about surgical treatment.
- **Attitude Toward Regime:** Opinion about medical treatment.
- **Auscultating:** Examining: Listening for sounds within the body.
- **Authorising:** Managing: Giving permission, granting authority.
- **Autogenic Training Technique:** Technique: Teaching related to self-suggestions to induce relaxation.
- **Bandage:** Wound Dressing
- **Bathing:** Hygiene: Applying water or cleansing material to something.

</table>

**Body Temperature**: Internal body heat related to body metabolism.

**Body Temperature Degrees**: Body Temperature

**Body Substance**: Body Temperature

**Integrity**: Parenting: Attachment between an infant and parent(s); formation of affectionate ties.

**Musculoskeletal Pain**: Mild to severe discomfort from the periosteum of bone.

**Eating or Drinking Pattern**: Nurturing infant by providing milk from the breasts.

**Bowel Status**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Health Education Service**: Eating or Drinking Pattern: Nurturing infant by providing milk from the breasts.

**Support Group**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Support Group Therapy**: Eating or Drinking Pattern: Nurturing infant by providing milk from the breasts.

**Health Education Service**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Support Group Therapy**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Technique**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Technique**: Impaired Engorgement: Swelling of breasts with pain and heaviness of breasts occurring with milk accumulation after child delivery.

**Construction**: Structures designed and constructed for human use.

**Compulsive Eating Behaviour**: Behaviours related to insatiable craving for food, excessive appetite, episodes of binge eating followed by self induced vomiting, associated with depression, self-deprivation.

ICNP

May 2017

1. Domestic Animal
   Animal: Tamed animal belonging to an owner.

2. Drain
   Transporting Device

3. Drainage Tube
   Tube

4. IC Drainage Tube Care
   Action

5. A Draining
   Cleaning: Causing something to run or flow away.

6. A Draping
   Covering: Putting on pieces of cloth or material.

7. M Drawing
   Removing: Extracting fluids.

8. M Draw Sheet
   Absorbing or Collecting Device

9. A Dressing
   Covering: Putting on or removing clothes.

10. A Draining
    Cleaning: Causing something to run or flow away.

11. A Drying
    Cleaning: Causing something to run or flow away.

12. A Draining
    Cleaning: Causing something to run or flow away.

13. A Draining
    Cleaning: Causing something to run or flow away.

14. A Draining
    Cleaning: Causing something to run or flow away.

15. M Drink
    Nutrient

16. F Drinking
    Eating or Drinking: Taking fluids during meals and during the day or when thirsty.

17. F Drinking Pattern
    Eating or Drinking Pattern

18. M Drip
    Transporting Device

19. F Drought
    Natural Disaster: Prolonged dryness, lack of rain.

20. M Drug
    Material

21. F Drug Abuse Recovery
    Recovery

22. F Dry Mucous Membrane
    Impaired Mucous Membrane: Decreased moisture due to dehydration or illness.

23. F Dry Skin
    Impaired Skin: Rough, scaly epidermis, with risk of cracking in especially in hands, feet and over bony prominences.

24. T Duration Of Operation
    Duration

25. T Duration
    Status: The period of time during which something occurs.

26. F Dust
    Material: Small, light, visible or invisible particles in the air and on surfaces, easily displaced by wind and movement of objects.

27. F Dying
    Body Process: Gradual or sudden decrease in body processes leading to the end of life.

28. F Dysgraphia
    Expressive Aphasia: Inability to express words in writing.

29. F Dyslexia
    Impressive Aphasia: Disturbed ability to read, letters and words perceived as reversed, difficulty in determining left from right.

30. F Dyspareunia
    Visceral Pain: Painful sexual intercourse associated with forcible coitus, incomplete sexual arousal or genital damage associated with diseases, ulcers of genitals and adjacent tissue due to child births or female genital mutilation.

31. F Dyspepsia
    Impaired Gastrointestinal System Process: Sensation of epigastric discomfort after eating, abdominal feeling of fullness and pain, nausea, loss of appetite.

32. F Dysphasia
    Expressive Aphasia: Inability to express words orally.

33. F Dyspnoea
    Impaired Respiratory System Process: Labour movement of air in and out of the lungs, shortness of breath, associated with insufficient oxygen in the circulating blood, feelings of discomfort and anxiety.

34. L Ear
    Sensory System Component

35. IC Ear Care
    Action

36. F Earthquake
    Natural Disaster

37. F Earwax
    Secretory Substance

38. F Eating
    Eating or Drinking

39. F Eating Pattern
    Eating or Drinking Pattern

</table>

- **Knowledge**: Specific content of thinking based upon acquired wisdom or learned information or skills, cognisance and recognition of information.
- **Result**: Summary of test findings or outcomes.
- **Pain**: Sensation of pain of increasing severity and frequency, associated with contractions of uterus and cervical dilatation occurring during labour.
- **Traumatic Wound**: Torn, jagged wound associated with intensive sometimes life-threatening tissue damage and loss of blood and serum accompanied with risk for shock.
- **Secretory Process**: Process of synthesis and secretion of human milk from mature female mammary glands in breasts containing carbohydrate, protein, suspended fat, vitamins and minerals; human milk serves as basic food to nourish infant or child.
- **Size**: Above average in size.
- **Body Cavity**: Main body compartments where organs are situated.
- **Respiratory System Component**: Parts of the respiratory system that assist in the exchange of gases.
- **Surgical Device**: Instrument or tool used in a surgical procedure.
- **Injury**: Physical damage to the body caused by internal or external factors.
- **Laterality**: Spatial or directional orientation of objects or events.
- **Allergy**: Immune response resulting from contact with products derived from the rubber tree.
- **Communication**: Act of using facial and verbal expressions to indicate the feelings of joy, amusement.
Laundering: Washing: Taking care of washing, drying, ironing or tidying clothes.

Psychosocial Structure: Authoritative declarations of legal rules, guidelines or orders applicable to state agencies and officials or to citizens with regard to some aspect of social life.

Managing: Going in advance, showing the way, purposefully proceeding to elicit a desired response.

Thinking: Process of acquiring knowledge or skill by means of systematic study, instruction, practice, training or experience.

Learning: Process of acquiring knowledge or skill by means of systematic study, instruction, practice, training or experience.

Learning Material: Communication Device

Legal Guardian: Individual

Legal Guardian Role: Individual Role

Legal Service: Service

Leg: Body Region

Legal Service Role: Process Role

Level Of Poverty: Rate: Relative rate of the number of members of a community or society who lack the financial or material resources to meet an expected level of basic needs.

Life Expectancy: Status: Average age at death in a given population of those born alive.

Lifting Apparatus: Mobilising Device

Light Therapy: Therapy

Limit Setting: Restricting: Limiting or constraining behaviour.

Liniment: Material

Lip: Body Region

Listening: Communication: Making an effort to hear other, attentively hearing what others say, take notice of and respond to others.

Literacy: Ability

Literacy Rate: Rate: Relative rate of individuals being able to read or write within a community or population.

Lithotomic: Body Position

Loneliness: Negative Emotion: Feelings lack of belonging, emotional isolation, feeling of being excluded, feeling of melancholy and sadness associated with lack of companions, sympathy and friendship accompanied by feelings of meaninglessness, emptiness, withdrawal and low self-esteem.

Long Term Memory: Memory: Ability to recall past events or experiences.

Low Absolute Level: Lack; deficit; below average or below normal amount, intent, or intensity.

Lower: Body Region

Lowering: Positioning: Letting or bring down the entire body or parts of the body.

Lower Upper Position: Position

Lung: Respiratory System Component

Lymphatic Oedema: Oedema
Maceration: Extensive abrasion of cover tissue of the body surface associated with continuous presence of moisture and wet skin.

Regulating: Keeping something up, retaining something or continuing something.

Male Fertility Fertility: Fertility of male in reproductive age of production of spermatozoa and sex hormones relating to capacity to beget and make female become pregnant.
Male Genital Mutilation: Excision of parts or all of external genitalia of male infant or adult associated with rites of passage and as such justified by cultural habits or religious beliefs excluded is male genital circumcision.
Mammary Gland Female Reproductive Body: One of two discoid hemispheric glands i.e. female breasts on chest of mature females, present in rudimentary form in males and in undeveloped form in female children; containing elements that secrete human milk for nourishment of infants; female breasts are usually regarded as part of female sexuality.

Impaired Neurological Status: State of emotion filled with positive vitality, negating concerns and losing inhibition. A person in this state experiences ego exaltation, sense of fulfilment, exhilaration, becomes garrulous, hyperactive, and develops psychomotor excitement, flight of ideas.

Marasmus: Condition of severe malnutrition and starvation primarily in children, severe protein and calories deficiency, accompanied by severe tissue and muscle wasting, dehydration, loss of subcutaneous fat, lethargy and growth retardation.

Marital Satisfaction Status: Ongoing fulfillment of desires, gratified emotions or ratification between marriage partners or couples in the family.

Death Rate: Relative rate of death of women during childbirth.

</table>
Communication Barrier: Obstruction: Impediment or blockage to exchange thoughts, messages, or information.

Obtaining: Managing: Gaining possession of something, acquiring.

Occupational Health: Health: The state in which a worker is able to function at optimum level of well-being at the workplace.

Occupational Therapist: Care Provider

Occupational Therapist Role: Care Provider Role

Occupational Therapist Service Health Service: Multidisciplinary specialty practice that focuses on promotion, protection and restoration of workers’ health and prevention of illness and injury within the context of a safe and healthy work environment. It includes environmental, occupational surveillance for identification, assessment and precautionary measures for the prevention of related health risks and hazards; individual monitoring of health in relation to work; participation in the development of supportive employee programs and the improvement of safe workplaces and practices within legislative guidelines and collaboration in providing information, training and education to employers, employees and government for occupational health and hygiene.

Ocular Route: Body Route

Oedema: Fluid Retention

Offering: Distributing: Giving an opportunity for.

Offering Drink: Offering

Official Strike: Industrial Conflict: Conflict in accordance with system of agreement in order to gain better working conditions; usually by refusing to continue working.

Oil: Material

Ointment: Material

Older Adult Development: Adult Development Process

Older Adult: Adulthood

Onset: State

Open Wound: Wound

Care Of Open Wound: Wound Care

Operating Theatre: Health Care Department

Operation: Event or Episode

Optimising: Maintaining: Achieving the best result.

Oral Care: Action

Oral Care Regime: Regime

Oral Cavity: Body Cavity

Oral Hygiene Pattern: Hygiene Pattern

Oral Mucous Membrane: Mucous Membrane

Oral Route: Body Route

Oral Status: Gastrointestinal Status

Ordering: Managing: Giving a command, requesting to be supplied with something.

**Definitions:**
- **Response To Treatment:** Status: Reactions to a stimulus.
- **Dyspnoea:** Shortness of breath while at rest and in comfortable positions.
- **Hyperactivity:** Sensation of uneasiness, tiredness and itching deep within muscles sometimes associated with muscle twisting and tingling sensation of pain.
- **Treating:** Bringing back to a former or original condition, renewing, reviving mental and physical rejuvenation.
- **Restoring:** Making somebody or something revive to life.
- **Controlling:** Keeping somebody or something within physical bounds.
- **Artefact:** Consequence or effect of something, outcome.
- **Restoring:** Making somebody or something revive to life.
- **Phenomenon:** The possibility of loss or problem, a problem is expected to occur with a certain probability, potential negative state.
- **Event or Episode:** Ceremonial acts customarily performed to acknowledge the movement from one phase of life to another.
- **Ritual:** Tradition.
- **Construction:** Course or path for motor vehicles and people to travel.
- **Characteristic:** Interacting according to implicit or explicit set of expectations, rules and standards of behaviour expected by others.
- **Role Of Entity:** Group members interacting according to set of expectations, rules and standards of behaviour expected by others.
- **Role Of Organism:** Role Of Entity.
- **Role Of Entity:** Group members interacting according to set of expectations, rules and standards of behaviour expected by others.
- **Role Of Organism:** Role.
- **Collection of Processes:** Detailed course of action followed regularly, a set of customary procedures or activities, unvarying or habitual set of action.

Setting Up Act
Preparing: Placing something in position for use.

Sexual Behaviour
Behaviour

Sexual Harassment
Aggressive Behaviour: Sexually motivated actions of physical or verbal violation of one or more others persons exercising power and abridgement of the victim’s right to equal opportunity, privacy and freedom from assault.

Sexual Intercourse
Performing: Sexual actions of two people usually of opposite sex; sexual union with aim of mutual excitement and orgasm.

Sexual Process
Reproductive System Process: Ability of participating in sexual intercourse and for the male to ejaculate.

Sexual Recovery
Recovery

Shame
Negative Emotion: Feelings of loss of self-respect caused by wrong, dishonourable or foolish behaviour of oneself; feelings of shame are directed towards oneself instead of directed towards others.

Shampooing
Cleaning: Washing with water and cleaning substance to clean and remove microorganisms.

Shaving
Cutting: Cutting hair or beard.

Sheltered Housing
Supported Housing
Sheltered Work Place
Work Place

Sheltered Work Place
Work Place

Shiver
Thermoregulation: Involuntary trembling with muscle contractions or twitching sensation of cold associated with fall of body temperature below the thermostatic set side effects of anaesthesia or chill phase of fever.

Shopping
Performing: Buying items necessary for maintaining daily life; purchasing, trading or bartering for items needed for the home.

Short Term Memory
Memory: Ability to recall recent events or experiences.

**Supporting Device Definition:**

Supporting Device: A device used to support or assist in a specific therapeutic or supportive role.

**Supporting Family During Toilet Training:**

Supporting Family During Toilet Training: The process of supporting a family member who is undergoing toilet training.

**Supporting Family During Weaning:**

Supporting Family During Weaning: The process of supporting a family member who is weaning from a particular habit or substance.

**Supporting Decision Making Process:**

Supporting Decision Making Process: The process of supporting someone in making informed decisions, often in complex or sensitive situations.

**Supporting Family Coping Process:**

Supporting Family Coping Process: The process of supporting a family in coping with a challenging or difficult situation.

**Supporting Family During Mourning Process:**

Supporting Family During Mourning Process: The process of supporting a family during the mourning period following the loss of a loved one.

**Supporting Family During Psychological Status:**

Supporting Family During Psychological Status: The process of supporting a family member with their psychological health and well-being.

**Supporting Family During Positive Body Image:**

Supporting Family During Positive Body Image: The process of supporting a family member in developing a positive body image, often in relation to body image disorders or issues.

**Supporting Family During Surgical Device:**

Supporting Family During Surgical Device: The process of supporting a family member who is undergoing surgery, including the use of a surgical device.

**Supporting Family During Surgical Drape:**

Supporting Family During Surgical Drape: The process of supporting a family member who is undergoing surgery, including the use of a surgical drape.

**Supporting Family During Surgical Site:**

Supporting Family During Surgical Site: The process of supporting a family member who is undergoing surgery, including the surgical site.

**Supporting Family During Surgical Wound:**

Supporting Family During Surgical Wound: The process of supporting a family member who is undergoing surgery, including the surgical wound.

**Supporting Device Definition:**

Device: An artifact or material object designed to fulfill a purpose, typically involving the application of technology.

**Interrupting:**

Interrupting: Putting an end to the activity or existence of something.

**Psychological Status:**

Psychological Status: The state of a person's mental health or psychological well-being.

**Spiritual Rituals:**

Spiritual Rituals: Practices or ceremonies performed to invoke spiritual or religious beliefs.

**Use Of Traditional Therapy:**

Use Of Traditional Therapy: The use of traditional healing practices or therapies.

**Wound:**

Wound: Cut of tissue produced by sharp surgical instrument to create an opening into a space the body, or into an organ resulting in drainage of serum and blood, expected to be clean i.e. not showing any signs of infection or pus.

</table>

**Terminology**

- **Thermoregulation**: Regulatory System Process: Controlling of heat production and heat loss through physiological mechanisms activated by hypothalamus, skin and body temperature.
- **Thirst**: Perception: Sensation of desire for drink of water or other fluid referred to mouth and throat, dry mucous membrane in mouth and throat.
- **Thrive**: Thriving Process: Growth: Condition of expected and normal weight gain and growth especially in children, well-nourished and fit body due to access to essential nutrients.
- **Thrush**: Infection: Whitish coating associated with fungus infection, whitish spots or shallow ulcers.
- **Tissue erosion**: Impaired Body Tissue Integrity: Loss of epidermis, exposing dermal papilla.

</table>

Vitiation: Conscious choice, act of choosing using one's own well being.

Impaired Gastrointestinal System Process: Expulsion or bringing up of converted food or stomach content through the oesophagus and out of mouth.

Volition: Conscious choice, act of choosing using one's own well being.

Vomiting: Impaired Gastrointestinal System Process: Expulsion or bringing up of converted food or stomach content through the oesophagus and out of mouth.

Walking: Mobilising: Moving body from one place to another by moving legs stepwise by self, capacity to bear weight of body and walk with effective gait within the range of speed from slow, moderate and fast pace, upstairs, downstairs, up inclines and down inclines.

Walking Using Device: Walking: Mobilising: Moving body from one place to another by moving legs stepwise by self, capacity to bear weight of body and walk with effective gait within the range of speed from slow, moderate and fast pace, upstairs, downstairs, up inclines and down inclines.

Wandering: Mobilising: Moving about; aimless roaming, straying away from a given place.

Warfare: Violence.

Wart: Infection.

Washing: Cleaning: Making something clean with water or other liquid and a cleansing agent.

Water: Material: Clear liquid compound of hydrogen and oxygen that is essential for most plant and animal life influencing life and development of human beings.

Water Filtration Service: Provision of service appropriate for decontaminating water to make it fit for human consumption, storage, sedimentation, filtration and disinfection (chlorination) of public water.

Water Mattress: Mattress.

Weather: Environmental Process: State of the atmosphere at a given time or place with respect to the temperature, pressure, humidity, cloudiness, or any other meteorological changes and influencing life and development of human beings.
10021075 F Wheelchair Use Mobilising: Moving body from one place to another by wheel chair, transfer to and from wheel chair propel wheel chair safely, manoeuvre curbs, doorways ramps and other obstacles within the range of speed of slow, moderate and fast pace.

10033334 F Wheeze Impaired Respiratory System Process

10021081 M Wig Prosthetic Device

10021099 F Wild Animal Animal: Untamed, not domesticated and not controlled animal influencing life and development of human beings.

10021109 F Will Power Volition: Dispositions to retain and abandon actions, controlling or not controlling impulses taking into account attitudes of the will, intentions and inclinations.

10021113 F Will To Live Volition: Will is influenced by thoughts and wishes to continue life despite difficult circumstances, strong urge to live, choosing or act to perpetuate one’s life.

10021121 F Wind Environmental Process: Natural motion of the air, noticeable current of air moving in the atmosphere parallel to the earth’s surface influencing life and development of human beings.

10035422 F Withdrawal Status

10040754 F Withdrawn Behaviour

10021132 F Workforce Role Group Role

10021145 L Work Place Social Structure

10021150 F Work Role Process Role: Interacting according to responsibilities of duties to work; expected behaviours of being employed, complying with working requirements; internalising expectation held by employees and employers, colleagues, organisations and society regarding appropriate or inappropriate work role behaviour.

10021166 F Worship Spiritual Behaviour

10021178 F Wound Impaired Structural Body Part: Lesion of the tissue usually associated with physical or mechanical damage; sloughing and tunnelling of tissue; serous, sanguineous or purulent drainage; skin erythema; oedema; blistered, macerated and abnormal skin, elevated skin temperature, wound odour, soreness and pain.

10033347 IC Wound Care Action
